Frank Oliva Died Sunday Morning

Pioneer of Crow's Nest Pass and
Resident of Coleman for Over
Twenty Years

Death claimed an old-timer of the Crow's Nest Pass at 3 a. m. on Sunday, April 1, in the person of Frank Oliva, who first came to Alberta 32 years ago, when the C.P.R. did not extend beyond Macleod on this division. For the past twenty years he lived in Coleman, having been employed at the mine of the International Coal & Coke Co. Ltd. The deceased is survived by his wife, five sons and two daughters: Andy, manager of the Coleman Trading Co.; Dominick, Peter, Angelo, Joseph, Miss Francis Oliva and Mrs. Anthony Gianario.

High mass was held in the Holy Ghost Church, Coleman, at 10 a. m. on Tuesday, Rev. Fr. McCormick being the celebrant. The choir was not local on account of the absence of the organist, and Rev. Fr. Harrington, Mrs. Morgan and Mrs. Bond of Blairmore, filled the vacancy, and rendered the Mass of Solemn Requiem with beautiful effect.

After Mass the body was taken to the residence, where relatives and friends filed past the casket. Interment took place at 3:30 p. m., the funeral procession proceeding direct from the home to the Holy Ghost cemetery, followed by a large number of cars with sympathizers from the town and district.

This deceased was born in Italy on Sept. 15, 1864, being 64 years of age at his death. As a mark of respect the surface men at the International ceased work at 4 p. m. in order to attend the funeral, and representatives were present from the Moose Lodge and the Italian Society, of which deceased's sons are members.

Flowers were sent by the following: From Mrs. Oliva, Angelo, Joseph and Francis, floral basket; Mr. and Mrs. Andy Oliva, Dominick, Peter, Carmela, Tony and Frank Alampi, floral basket; Dominick and Teresa (grandchildren) spray; Mr. and Mrs. J. Michalsky, wreath; Mr. and Mrs. Chas. Baffore, (Blairmore) wreath; Joe Micciotti, spray; Mr. and Mrs. Frache, (Lethbridge) spray, besides numerous other floral tributes. Funeral arrangements were carried out by Mr. Ferguson, Crow's Nest Undertaking Parlors.

Card of Thanks

The Oliva family wish to thank their many friends for kind expressions of sympathy and floral tributes received during their bereavement. Also appreciation is expressed to Dr. Borden and Dr. Stewart for their kind services during the long sickness of our beloved.

Mrs. Jones and Mrs. L. Hall were Lethbridge visitors this week.

Charged With Disorderly Conduct

Long Kam, the genial proprietor of the Coleman Cafe, has frequently been subjected to annoyance from "hoodlums" who create a nuisance and are also an annoyance to patrons. Chief Houghton rounded up one young fellow named Chalmers on Monday at midnight, being specially called to the cafe, and placed him in the "cooler." On Tuesday before Magistrate Graham he pleaded guilty and was fined \$5.00 and costs, and bound over to keep the peace for twelve months under a bond of \$100.

Jean Pattinson is Awarded Third Place

Coleman High School Representative in Oratory Contest at Pincher Creek

Very keen and close competition marked the oratory contest on Tuesday evening at the opera house at Pincher, when Lillian Drew of Pincher, Lena Fraser of Blairmore and Jean Pattinson of Coleman took part in the district finals of the provincial oratory contest. The subject, "Canada's Future," was excellently presented by the three contestants, a wealth of information being given in the brief space of ten minutes allowed each candidate.

The judges were the Rev. Mr. Wright of Bellevue, the Rev. Mr. Taylor of Hillcrest, and a third gentleman from Blairmore. Miss Drew of Pincher was awarded first place, and only by one point was Miss Pattinson placed third, though many present favored her for second place.

The local committee had arranged a very nice program and visitors from Coleman speak in a commendatory manner of their reception.

Women's Institute Will Sponsor Play

Local Dramatic Society Will Put on Play Under W.I. Auspices in Aid of Swimming Pool

The regular meeting of the Women's Institute was held at the home of Mrs. O. E. S. Whiteside on Tuesday last with a large number of members present.

A very able demonstration of boning a chicken was given by Mrs. W. L. Rippon.

The local dramatic society has kindly consented to stage a play, the proceeds of which will be for the Women's Institute Swimming Pool Fund. This will take place in the near future and will be worthy of general community support.

The April meeting will be held at the home of Mrs. Price and the program will be in charge of Mrs. W. J. Burns and Mrs. A. E. Graham.

Antrobus' Sell Good Shoes

Fire Brigade Called on Tuesday Night

Prompt Work Saved House from
Total Destruction--Most of
Contents Saved

Whilst reclining in bed at his home on Tuesday evening, Andrew McLeod, living on Fourth street, was startled by a neighbor knocking at the door and telling him that the roof was on fire. Willing hands immediately rushed to the spot and helped to remove the furniture and effects, while the fire brigade hurried to the scene and very soon had it under control, restricting the fire to the roof and the shed adjoining the house where it had originated.

Mr. and Mrs. McLeod were given quite a shock when the alarm was given, as Mr. McLeod has not been very well of late. They have moved over to their son's home at Carbondale till repairs have been made to their home.

A clock which was left in the house during the fire was found ticking away next morning by Chief Houghton when he inspected the place, and the telephone connections were not damaged. The origin of the fire is a mystery, as there had been no fire in the place where it started.

Delay was caused in the arrival of the fire truck through difficulty in starting the motor, which has been the cause of criticism. The cause of the trouble was in two cylinders of the engine.

Truant Officers Report

Thos Brennan, truant officer of Coleman schools, submits the following report for March: 58 homes were visited in order to check up absentees from school, ten being from West Coleman, 48 from Central school. 68 have returned to school. Mr. Brennan states that he looks for a full attendance after the Easter holidays.

St. Alban's Church

Good Friday, April 6, Matins and Litany at 11 a. m.

Easter Day, April 8, Holy Communion at 7 a. m. and at 9 a. m.

Children's service at 2:30 p. m. Prizes given away at this service.

Evenson at 7 p. m. Mr. R. Bromley will sing two solos at this service.

Polish Concert Was Very Successful

Mrs. Clifford's Class Present Very
Interesting Numbers at Saturday Night Concert

The Polish concert held on Saturday was quite a success and was ably conducted. The youngest actors, who were a few from Mrs. Clifford's class, seemed to have the audience's greatest approval, much to the delight of the youngsters. Miss Yoll's class, too, performed very ably.

When the chairman announced that a number of young ladies would stand on their heads, the audience was shocked, but when the curtain rose the young ladies were hidden behind sheets. Then too, by the younger set a play was presented entitled "The Wonderful Doctor," which was ably done, showing the doctor making a stout lady thin and a thin lady stout.

A dialogue by two of the elders entitled "Husband and Wife" brought the concert to a close.

Re Mary vs. Cassidy

In the action of Fernand Mary vs. Mrs. Cassidy, which was reported briefly in last week's paper, the full text of the judgment, as handed down by His Honor Judge MacDonald is as follows:

1. F. Mary is entitled to Lot 2.
2. Mrs. Cassidy is to remove all buildings from Lot 2 before the 15th of May, 1928.

3. F. Mary gets \$25 damages.
4. W. A. Beebe is to pay the damages and to pay F. Mary's costs.

5. W. A. Beebe is to pay Mrs. Cassidy's costs.

6. F. Mary is to pay John Cassidy's costs.

Brennan Pro Prospect

While on the subject of Trail and its hockey luminaries, the work of Mickey Brennan, clever left winger of the Smoke Eaters in the two-game series against Delisle is worth more than passing mention. Brennan is only 18 years of age and looks like one of the best professional hockey prospects seen here in a long time. He falls from Coleman, Alta. Jackson in the Trail nets is another youthful but capable performer. He is only 19. Jackson and Brennan would look mighty good to any junior club around these parts—Saskatoon Star.

Welcome News to Pass Coal Towns

Expects Mines to be Busy
Throughout Summer States
Geo. Kellock in Winnipeg

The following despatch from Winnipeg appeared in the Calgary Herald of yesterday:

The mines in the Crow's Nest area have been very busy since the beginning of the new year, and expect to continue busy throughout the summer, said Geo. Kellock, manager of the McGillivray Creek mine at Coleman, on his arrival in the city, Monday. This is not due in any way to the movement of Alberta coal to Ontario, as the Crow's Nest field is all steam coal. Mr. Kellock declared, except in so far as more steam coal was used by the railways for their own fueling when they were busy.

Coleman Masons Attended Funeral of Grand Secretary

Grand Secretary, S.Y. Taylor, Laid
to Rest With Full Masonic
Honors

Coleman was represented at the funeral of the secretary of the Grand Lodge of Freemasons at Calgary on Saturday last by Rt. Wor. Bro. C. S. Oumette, P.D.D.G.M. and Rt. Wor. Bro. A. M. Morrison, D.D.G.M. The late secretary, Rt. Wor. Bro. S. Y. Taylor, died after a very brief illness, and his passing is mourned by members of the craft throughout the entire province. He lent dignity and grace to the office, and his last visit to the Crow's Nest Pass district was last October, when he attended the district meeting held at Hillcrest.

He was a splendid exponent of the principles of Freemasonry, both in word and in deed, and his place will indeed be difficult to fill. Many tributes of appreciation of his sterling qualities have been voiced by prominent men in all parts of the province. He was 61 years of age, and had been a resident of Calgary for over twenty years.

Cecil G. Mulholland, representing Remington Typewriters Ltd., was a business visitor at The Journal office yesterday.

Amateur Baseball Association Meeting

Provincial Secretary Sends Out
Notice of Annual Meeting to
be Held at Macleod

The annual meeting of the Alberta Baseball Association will be held at Macleod on April 11, at 8.30 p. m., in the Elks hall.

In selecting Wednesday, April 11, the president hopes that every club will be able to have their own representative attend the meeting. Wednesday is generally observed as a half-day holiday throughout the province, and by convening the meeting for 8.30 p. m., a minimum of time will be required from business hours by any delegate, and the meeting will close in good time to permit those present in reaching their homes Wednesday night, or at the latest on Thursday.

The Alberta Baseball Association championships are now open to all clubs in Alberta.

The association has seven trophies for annual competition, and five of these are reserved for competitively elite senior teams.

In order to secure representation at the meeting at Macleod on Wednesday, April 11, clubs must provide their delegates with representative letters signed by the president and secretary of the club, and the fee for section of the championships in which entry is desired must accompany the credentials.

Under the rules adopted last year all clubs are drawn in the championship play-off.

In addition to the championship series this year the association has been presented with trophies which are to be competed for throughout the playing season on the challenge system.

The entry fee for these trophies will be a nominal one, but all players used in the games must carry playing certificates issued by the Alberta Baseball Association. These certificates cost 25c each and are issued by the association secretary.

All members are entitled to one delegate and one vote at the annual meeting.

Entry fees for the Alberta Baseball Championships are: Senior \$15.00; intermediate, \$10.00; junior \$3.00; juvenile and midget clubs can enter free.

If your club is not decided upon which section of the Alberta Baseball championships to enter, this can be settled later, and any club entering as intermediates at the meeting at Macleod on Wednesday, April 11, can be advanced to senior at any time prior to May 15, by paying the additional entry fee.

Any further information will be promptly sent to you upon application to the undersigned.

Protect Our Forest Resources

Among the varied natural resources which go to make up Canada's enormous potential wealth, the forests occupy a most important place. As now generally known, Canada has within recent years moved into first place among the nations of the world in the production of paper, having passed the United States in 28 to a few years ago was the world's largest producer. The great development of water powers, now so marked a feature of Canada's industrial progress, has been largely brought about because the growth of the pulp and paper industry. This water power development is, however, vitally affecting the whole life of the Dominion.

Apart from the pulp and paper industry, the forests have an influence, and play a direct part upon practically every department of Canada's national life whether it be the social, economic, financial, agricultural or industrial. It is of the utmost importance, therefore, that the forests of Canada be protected and conserved.

In full realization of this fact, the Dominion Government has by royal proclamation issued its His Excellency the Governor-General, set apart the week of April 22 to 28 as "Canadian Forest Week." Statements contained in this royal proclamation may serve to bring home to Canadians the effect and value of the forests which they have given little thought. In this proclamation the following facts are emphasized:

1. Our national income depends on our forest industries more than on any other source except agriculture.

2. Our forest industries depend on the timber crops now standing ripe in the forest, and their very existence is jeopardized by any preventable wastage of these supplies. The future of the forest industries depends on the young growth and immature timber of today, and the prosperity of these industries will be in direct proportion to the care and protection afforded this growing timber.

3. Our water-powers depend upon the stability of stream flow throughout the year, the equilibrium of which is disturbed by denudation of the forest cover in the drainage basins, resulting in alternate periods of floods and low water.

4. Our irrigation works demand protection—forests are the fountain-head of irrigation.

5. Our agricultural lands depend on distant watersheds for the maintenance of subsoil moisture during the growing period, and are robbed of productivity by wasteful run-off which occurs when the forests are destroyed.

6. Our game and fur-bearing animals depend on the forest for their natural protection, and decrease in numbers or retreat to more remote regions as the forest cover disappears.

7. Our tourist traffic depends in a great measure on scenic and other attractions offered in such abundance by the forest and would be seriously affected if verdant woodlands be transformed into desolate wastes.

This enormously valuable asset to any country—and Canada is among the wealthiest in forest resources among the nations of the world—is threatened by two dangers both of which are man-caused and therefore preventable. (1) Almost universal carelessness with fire in the forest, resulting in the destruction, not only of timber and young growth, but of the very soil which produces it, and (2) the use of wasteful and destructive cutting methods without any thought of ensuring a new crop.

It is in recognition of all these facts that during "Canadian Forest Week," April 22 to 28, which is also the beginning of another season of travel and recreation in the forest with attendant fire danger, the people of Canada are officially urged to resolve for another year to recognize the situation as set out in this royal proclamation and to give careful heed to the information issued by the several forest authorities and agencies in Canada to the end that all may be encouraged to a sustained and patriotic effort in promoting the conservation of this valuable resource.

The Worm Has Turned

Union For Men's Rights Is Organized In Tibet

Masculinists are on the march in Tibet. These men's rights have been achieved. Every woman has at least three husbands, whom she keeps or casts aside at will. A discarded husband is an outcast from society. And all except the favorite husband must work for the wife.

One of these working Tibetan husbands—Anouki by name—has seen what feminism leads to, risen above the ideology of his environment, and organized a union for men's rights. He and some five hundred desperate followers have even tramped to the holy city of Lhasa with a banner inscribed "Striking husbands of Tibet" and with placards reading "Down with the tyranny of women," "Men must have financial independence," "Abolish polyandry." The outcome is not yet known; at least reports, the rebellious husbands had not returned home.—The Outlook, New York.

Millions For Publicity

National Advertisers Spend \$225,000, 000 In 1927 In Newspaper

Advertising
National advertisers spent \$225,000,000 for newspaper advertising in 1927, the bureau of advertising of the American Newspaper Publishers' Association has announced. Estimates showed that 352 companies had expended \$122,000,000, of which the greatest sum, \$33,505,000, was spent by 57 automobile companies. Eighty-two food advertisers spent \$24,045,000, and 14 tobacco companies spent \$15,200,000.

Externally Or Internally, It Is Good—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve the effects of the bronchial tubes and respiratory organs. Try it and be convinced.

Sight Makes a Difference

Race Horses Always Run Faster If They See Well

The horses that run fastest are those that can see best. They are made with special instruments and powerful lights in an attempt to increase the speed of race-horses have shown that one horse out of every ten suffers from defective sight.

To correct this, racers were fitted with odd-shaped spectacles, and it is said that the animals' time for a quarter of a mile was often bettered by as much as three seconds. Many circumstances affect a horse's speed, but numerous tests with and without glasses have proved that sight does make a difference.

It's part of the Turkish religion to care for all people of Turkey.

Praise For Canadian West

Success Assured For Those Who Are Willing To Work

Let it be thoroughly understood by all intending immigrants that the Canadian prairie either makes or breaks the man who sets out to subdue it. Prizes there are to be won, without a doubt. Broad areas of fertile wheat land regularly yielding their vast stores of golden grain. Great herds of sleek cattle dotted about the emerald hills in summer, or safely sheltered inside snug buildings in the winter. Eligible, comfortable houses, furnace-heated, their basements piled with stacks of wood and coal. Lavish tables spread with wholesome food in such profusion as the Londoner never dreams of. Automobiles, radios, telephones, electro-power—everybody can have them. Prosperity and abundance are within reach of all who have enough tenacity to forge and use the iron key—work. —Wide World Magazine (London.)

A TIRED FEELING IN SPRINGTIME

Not Sick, But Not Up To The Mark—You Need The Help Of That Sterling Tonic, Dr. Williams' Pink Pills—They Give New Vitality.

With the passing of winter many people feel weary, depressed and easily tired. The body lacks the vital force and energy pure blood alone can give. In a word, while not exactly sick, the indoor life of winter has left its mark upon them. A blood-purifying, nerve-restoring tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-year-round blood builder and nerve tonic, but are especially useful in the spring. Every dose helps to make new, rich, red blood, and with this new blood returning strength, cheerfulness and good health quickly follow.

If you are pale, easily tired, or breathless at the least exertion, if your complexion is sallow or you are troubled with pimples or eruptions, Dr. Williams' Pink Pills are just what you need to put you right. If you have twinges of rheumatism, are subject to headaches and backaches if you are irritable and nervous if your sleep does not refresh you, or your appetite is poor, you need the treatment Dr. Williams' Pink Pills alone can give. You need the new blood, new strength and new energy this medicine always brings. Mr. A. Macdonald, North Han, Que., writes:—"I have found great benefit from the use of Dr. Williams' Pink Pills. Before I began using them I was in a badly rundown condition, and at times I was almost unable to work. Dr. Williams' Pink Pills have changed all this and since taking them I am enjoying the best of health. Every man who feels rundown and easily tired should give this great medicine a fair trial."

Try Dr. Williams' Pink Pills for anemia, rheumatism, neuralgia, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition. They will give you resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c, a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Settlers Making Good

Alberta Board Reports Payments Met By Large Number
Sixty-five per cent of the settlers on land under the Calgary District of the Land Settlement Branch have already met their payments thus far in the year which ends June 30, 1928, according to W. S. Woods, superintendent of the Board in Calgary. More than \$513,000 has been collected, out of \$765,000 due, and the board has security upon wheat pool assignments yet to be realized upon covering deferred payments on more than 20,000 bushels of wheat. This is regarded by officials of the board as a particularly good showing.

A French astronomer now figures that the sun will continue to supply us with heat and light for 150 million years.

PAYS FINE TRIBUTE TO A GERMAN DIPLOMAT

Lord Grey Refers To Sterling Character Of Prince Lichnowsky

Lord Grey of Faldoon, opening a new institute and training centre for the blind at Leeds, paid a tribute to the late Prince Lichnowsky, who, he said, did a great work for peace. Lord Grey said:

Prince Lichnowsky, whom the lord mayor very truly described as a great friend of mine, was the German ambassador in this country at the time of the outbreak of war. He was very closely associated with him for two years. During the London conference of 1912 I saw how earnestly he worked for peace, and on that occasion happily with success. In 1914 he worked no less earnestly for peace, but was unable to avert the catastrophe of war.

I will not say anything for a moment today upon the question of war responsibility. There will always be a great propaganda on the subject which will do more to obscure than to reveal the truth. Historians will differ in their accounts of the causes and the conduct of the war, according to their personal feelings and national prejudices; but I hope that history will give the honored place to the man of high position who did all they could to avert war, and among them Prince Lichnowsky's name must always have an honorable place.

I do not think this country should remember him favorably, because at a time when in Germany the public men of this country and British policy were the subject of intense misrepresentation he had the courage and fairness in his own country to speak the truth about it. I trust that those efforts for peace, though they failed to avert the Great War, will be without fruit in an example for the future generations, and I hope that men of the same character and determination to avert war will be found, at moments of political crisis, in the place of responsibility. I read with deep regret news of his death, for he did a great work for peace.—London Times.

The worms that infest children from their birth are of two kinds, those that find lodgement in the bowels, and those that lodge in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not removed with work have them. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

Canadian System Best

Earl Of Elgin Thinks General Hospital Gives Best Service

An address on Canada was given by the Earl of Elgin, who recently toured this country, in the Victoria Hall, Hellenburg. In the course of his address, which was illustrated with slides, he said the people in Scotland could very well adopt the Canadian system of hospitals. In place of the private nursing homes and the general hospital as separate institutions, one large hospital provided treatment for private paying patients in separate wings of the same building to which non-paying patients were also admitted. The result was that the services of the best doctors and the most up-to-date equipment were available to all.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

It takes about half a minute on the average for a drop of blood to complete its trip through the body from the time it leaves the heart until the time it gets back.

Minard's Liniment for Cuts and Bruises.

Canadian War Ace Feted In Germany

Colonel Bishop, V.C., Made Member Of German Ace Association
Colonel Bishop, V.C., interviewed on his experiences in Germany where he was the guest of honor of the German Aces, said that quite unexpectedly he found famous aviators coming up and saying they were proud to make his acquaintance. They knew him as the Canadian who shot down 72 German machines during the war but now that the war was over they said they were no longer enemies but comrades who had all been doing their duty. They invited Bishop to lunch at the Aero Club. Udet, who shot down 62 allied planes, came to Berlin specially to meet Bishop.

On proposal of Udet, Bishop was made a member of the German Ace Association. Bishop humorously replied that he deserved the honor for he was accused of crashing one of the British planes that the German had ever done.

It was recalled that Richthofen was given full military honors when he was shot down and that other German aviators, when captured, were made members of British messes and treated as guests of honor.

Apples Will Be Marked

Canadian Fruit Sent To England Designated As Such

A Canadian apple on a British market will soon be known and designated as such, according to a report received by cable from J. Forestry Smith, Canadian fruit trade commissioner to Great Britain. In the past Canadian apples have been sold as apples. Imported into Great Britain by the standing committee for agriculture and horticulture produce both retail marking and container marking on imported fruit will become law under the British Merchandise Marks Act.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot fault Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

Takes Out Many Patents

New Jersey Boy One Of Youngest Inventors

Fred T. Roberts, Jr., is one of the youngest inventors in the United States. At the age of ten he made his first invention and now, twelve years old, he has taken out seven patents.

His latest device, soon to be placed on the market, is a tool for raising automobiles without putting the jack under the axle. He thought of the idea while changing a tire, which had settled in the mud, for his mother.

A clip placed over the spring has an opening into which fits a bar 10 inches long. The jack may be placed anywhere under the bar.

Four Great War Figures

The premier of Britain when the great war broke out, the British commander-in-chief on the main front, the German ambassador to Britain in August, 1914, and Marshal Diaz, Italian commander-in-chief in the war—all died within a few weeks.

Many people in Madagascar live in villages 20 miles from water and get their beverages from the cactus plant or drink milk.

Long Air Trip Completed
Woman Has Finished Flight From England To Australia
The longest flight ever undertaken by a woman has been completed at Port Darwin, Australia. Mrs. Keith Miller and Capt. W. N. Lancaster, flying a two-seater light plane, the Red Rose, arrived here from Croydon, England, a flight of 15,000 miles. The couple started from England on October 14, and carried their luggage in two suitcases. En route they met with several mishaps, the worst of which was at Munkley, Banksia Island, Dutch East Indies. Mrs. Miller's nose was broken, and Capt. Lancaster's lip cut, and it was doubtful for a time whether they could continue their flight. The plane was repaired, however, and they covered the scheduled stages without further incident. The flyers intend to continue to Sydney, N.S.W.

Drill For Oil Near Cochrane

Denver capital will bid a test well in search of oil north-west of Calgary not far from Cochrane. Toronto interests will drill in the Surficial field in Southern Alberta. Both are closed corporations with no stock for sale.

"Ma, you were wrong about the wedding," laughed little Tommy, his mother having come in late.

"What do you mean?"

"You said Mr. Flubhub was going into it blindfolded, but he didn't."

FINISH SURVEY OF H. B. LINE TO FORT CHURCHILL

Winnipeg.—The Hudson's Bay Railway line has been surveyed as far as Fort Churchill and after four months' work in the North country, Major J. L. Charles, reconnaissance engineer of the Canadian National Railways; H. R. Wilkinson, locating engineer, and other members of the party of 24, have returned to Winnipeg.

"We reached the Bay on March 8," Major Charles said, "and left for home on the 19th." They travelled by dog to the head road, 40 miles out from The Pas, covering a distance of 80 miles in two days. After camping a day, they took horses to the end of steel, mile 336, and came into Winnipeg by train. "We have had a very mild winter," the engineer said, "and lost only six out of our 60 dogs."

"A week ago Sunday the snow was melting at Churchill. The two Eskimos who arrived on St. Patrick's Day with the mail, which had been relayed by way of Eskimo Point, 150 miles away, had some difficulty because the mud runners of their sleds thawed out." He explained the Eskimo custom of smearing mud on their runners and freezing them. "It is a very good practice, so long as the weather keeps cold. We had the Eskimos to dinner with the day we left and our pork was quite a novelty to them."

The Department of Railways and Canals had a big gang of men working on the harbor at Churchill, Mr. Charles mentioned, and the wireless station was in operation, manned by three men. They kept in constant touch with the aeroplane patrol over Hudson Straits.

The contractors, Stewart and Cameron, were pushing the work of building the railway, he stated, and all was in readiness for the summer. Two draglines were out and ditching was going on north from Mile 354. Camps had been erected and caches were established. Supplies were all in readiness for the army of men which would commence grading as soon as the weather allowed. Donald Grant, superintendent of construction for Stewart and Cameron, who has just returned from a trip which took him as far as Deer River, about 60 miles on southwest of Churchill, says that by the end of May there would be at least 1,200 men on the job.

Viscount Cave Dead

Recently Assigned Post of Lord Chancellor Owing To Ill Health

Burnham, Somerset, Eng.—Viscount George Cave, who recently resigned as Lord Chancellor after a distinguished career at the Bar, died March 29.

Viscount Cave, who was born in 1856, held various posts in the British Government since 1915, becoming Lord Chancellor in 1922.

He was appointed solicitor-general in the first coalition cabinet in 1915, and later named by Premier Lloyd George for the home secretariat. He was created a Viscount in 1918.

Previous to entering high government office he was a member of parliament.

U.S. Wants Canadian Students

Because Educational System Is More Thorough Says English Editor

Hamilton, Ont.—People know little of Canada if they do not know that it is a land of cold winters, cool heads and warm hearts, John Walter, co-proprietor of the Times, London, Eng., told a large gathering here when he spoke at a Canadian club luncheon.

Referring to the exodus of Canadian students to the United States, Mr. Walter said the Canadian educational system is so thorough that United States institutions seek their services.

H.B. Railway Construction

Work Will Commence In Earnest As Soon As Snow Goes

Winnipeg.—Work on the Hudson's Bay Railway will commence in earnest as soon as the snow goes, according to Donald Grant, superintendent of construction for the Stewart, Cameron Company, which has the contract for the remaining 154 miles yet to be built. Mr. Grant said there were from 200 to 300 men on the job at present and that in another month a great many more would be sent out. By the end of May, Mr. Grant expects there will be at least 1,200 on the job.

W. N. U. 1727

Apply For Railway Charters

2,533 Miles Of Railway In Canada Involved In Application

Ottawa.—Hon. C. A. Dunning, Minister of Railways and Canals, informed the railway committee of the House of Commons that charters for 2,533 miles of railway in Canada were being applied for by companies other than the Canadian National and the Canadian Pacific Railways. The cost of this mileage he estimated at about \$175,000,000.

"In addition, there were applications before the provincial legislatures which brought the total mileage up to approximately 4,400, with an estimated cost of \$242,000,000. This did not include equipment and when it was supplied the total cost would approximate \$300,000,000.

The minister told the committee it was not possible at present to lay down the principle that no more charters were to be granted to companies other than the Canadian National and the Canadian Pacific Railways.

On the other hand, the Government was of the opinion that with the exception of railways, which were required for the development of mining properties or something of that nature, the two great railway companies could take care of the work. The committee would of course, give consideration to the applications which came before it."

At the opening of the meeting F. S. Cabell, Liberal member for Pontiac, was again elected chairman of the railway committee, and Dr. A. M. Young, Liberal, Saskatoon, deputy chairman.

The first bill considered was that of H. A. Stewart, Conservative member for Leeds, designed to place the issuing of licenses for the export of electric power under the control of parliament rather than in the hands of the province. This bill was reported.

Two bills covering construction of railways in Western Canada were considered next. The first, sponsored by G. G. Coote, U.F.A. member for Macleod, asked for a charter for construction of the Highwood Western Railway Company. The second applied for an extension of time for the construction of the Calgary and Fernie Railway Company. It was introduced by F. W. Gershaw, Liberal, Medicine Hat.

Taking Risk On Dirigible

Lloyds Will Protect R-100 On Flight Across Atlantic

London.—A syndicate of underwriters at Lloyd's is understood to have undertaken the risk of insuring the British dirigible passenger liner R-100 for its forthcoming flight across the Atlantic.

The rate, about 20 guineas per hundred, is looked upon as moderate, indicating the confidence of the syndicate in the ship's ability to make the flight.

If the ship comes down at sea and is damaged, the underwriters will pay the cost of repairs, while if she is lost altogether they will pay to the limit of the assurance.

The dirigible, which is expected to make its first flight this spring, is equipped with six 700 horsepower engines, can reach a speed of 80 miles an hour, and has a cruising range of more than 5,000 miles.

It is designed to accommodate 100 passengers and to carry 10 tons of mail.

Officially Withdraws From Public Life

Lindbergh Weary Of Admiration Prefers Role Of Normal Citizen

Washington.—Accoladed as no other individual in the history of the nation, Colonel Charles A. Lindbergh has officially withdrawn himself from public focus to follow his long cherished pursuit of a normal citizen.

Wearied of the adulation, decoration ceremonies and the constant formal affairs in his honor, the youth calmly contemplated the future and how best he might acquit himself in the intimacy of his lone hobby. "Lindy" doesn't know what he's going to do just yet.

Was Prominent Solicitor

London.—Hon. Sir Charles Russell, prominent solicitor, aged 65 years, is dead. He was solicitor for the Dominion of Canada and acted as solicitor for the British Government in the Behring Sea arbitration between Great Britain and the U.S. in 1893.

Red Cross Official Dead

Basle, Switzerland.—Dr. Bohly, president of the International League of Red Cross Societies, is dead here. During the war he was in charge of arrangements for exchanging prisoners in Switzerland of the wounded prisoners of all armies.

Not Feasible For Canada

U.S. Bank System Impossible In Dominion Says Governor Harding

Ottawa.—A federal banking reserve system, organized on the same basis and along the same lines as the U.S. system, would be almost impossible in Canada.

This was the opinion expressed by Governor W. G. P. Harkin, of the Federal Reserve Bank, Boston, before the banking and commerce committee of the House considering a possible improvement in Canada's banking system.

The Federal reserve board of the United States was in no sense a bank, Governor Harding told the committee. "It cannot loan anybody five cents," he declared. "It exercises a general supervision of the twelve Federal Reserve Banks in operation. It can fix the character of the security which may be accepted but cannot compel a bank to make a loan."

Experiment With Fertilizer

Alberta, Saskatchewan, and Manitoba View Shipments Of Superphosphates From Trail Smelter

Winnipeg.—Manitoba is participating in experiments that are being made with the use of superphosphates from the Trail smelter in British Columbia, as a fertilizer. J. H. Evans, deputy minister of agriculture, stated recently when commenting on reports that six cars of the by-product had been shipped to points on the prairies.

The results of the experiments are being watched with great interest.

Saskatchewan and Alberta have also got their share of the shipments, the idea being to make tests of the fertilizer over as wide a range of territory as possible. Mr. Evans said.

ONTARIO BOARD WILL HANDLE ALBERTA COAL

Toronto.—The office of fuel controller, established during the war, has assumed a new importance in view of the Dominion government's action in requiring the railways to transport Alberta coal to Ontario.

Premier Ferguson stated in the legislature in connection with the voting of an item for the fuel controller's office. A board was being set up to look after the handling of the coal and the Ontario representative would be the fuel controller.

It would be the duty of the board to see that the proper type of coal was brought east, Mr. Ferguson said. He suggested that in his opinion the railways should not be allowed to transport any coal not approved by the board.

Asked how the coal was to be distributed, the premier said: "I hope that we will have an organization created. I would like to see the Alberta government establish an office here, which would serve as a distributing centre and an advisory bureau. Persons wishing to buy the coal could arrange for it through such an office." It was not the intention of the government to take charge of distribution, he said, as had been done with the trial shipments.

Ottawa.—Those engaged in coal operations in British Columbia have not made representations as to getting into the eastern market. This was the answer given by the Government to a question asked by A. W. Neil (Independent, Comox-Alberni), as to whether or not the Government would extend the test movement rates on Alberta coal to coal from British Columbia with a pro rata increase for the extra distance.

Will Serve Vancouver Island

"The Princess Elaine," newest member of the Canadian Pacific Railway's Royal Family of steamships, now on her way to Victoria, V.I., via the Panama Canal, from the shipyard on the Clyde, Scotland. The vessel will be used for service between Vancouver on the mainland and Nanaimo on Vancouver Island across the Straits of Georgia, a distance of 40 miles, and is further qualified to ply between Seattle on the coast and Skagway on the north. She will have a speed of 18 knots, is 2,000 tons gross register, will have accommodation for about 1,200 passengers, and is specially designed for the transportation of automobiles, a turntable being installed to remove cars for disembarkation. On her trial run over the Clyde the Princess Elaine did over 19 knots.

NOTED ARCTIC EXPLORER

Vilhjalmur Stefansson, Arctic explorer, who is trying to prove men can "live off the land" in the north by strict meat diet for a month. He claims his all meat diet will not bring on scurvy as is generally believed.

For Promotion Of Peace

Miss McPhail's Motion For Creation Of Peace Department Is Withdrawn

Ottawa.—After a lengthy debate in House, Miss Agnes McPhail withdrew her motion for the creation of a department for the promotion of peace. Miss McPhail expressed the hope that between now and next session the government would set up some agency to tell what was being done for the promotion of peace.

Miss MacPhail said: "While we have a superlative complex which nothing can puncture, there will still be danger of war. It can't be true that we can always be right."

Women, she said, were keenly aware of war. They placed a higher value on human life because they suffered so much for it and for this reason they should have a voice in Parliament. The sacrifices of 1914 to 1918 should be crystallized into something which should prevent the recurrence of war.

Sir George Perley (Conservative, Argenteuil), said the League of Nations had performed commendable work in preventing wars and solving labor, health and other social problems. But something should be done in the way of bringing to the direct attention of the people of all countries the object and benefits of the League. In Canada the League of Nations Society with headquarters in Ottawa might be profitably utilized for educational purposes of this nature.

Hockey Titles Come West

Both Senior and Junior Amateur Trophies Annexed By Prairies

Ottawa.—The West climaxed its triumphs for supremacy of the Dominion's amateur hockey circles when Manitoba University trimmed Montreal Victoria 3-0 here to lift the Allan Cup and carry it westward to keep the O.H.A. Memorial trophy, emblematic of the junior hockey trophy, company in its new home. Regina Monarchs won the O.H.A. trophy when they beat the Ottawa Gunners, and the victory for the Varsity made a clean sweep of the titular boards. The Allan Cup carries with it all the Canadian senior championship.

B.C. Eggs Shipped To New Zealand

Auckland, N.Z.—The arrival of 10,500 dozen British Columbia eggs on the Canadian-Australian liner Aorangi has caused a drop of between 2 and 4 cents a dozen in the price of eggs at Auckland. The eggs landed in splendid condition and they proved an unpleasant surprise for local producers.

Discuss Activities Of Communists In Canada

Country Being Flooded With Red Literature Senate Is Told

Ottawa.—The Senate recently discussed the dangers of Communistic propaganda in Canada and heard an address delivered at length by Senator C. P. Beaulieu, who enquired what measures were being taken by the Government to repress the evil. Various religious bodies had petitioned the Government to close Communist schools; the Ukrainians in Canada fell easy prey to the Red agents.

There were 40 such schools in the country, attended by 2,000 children, said Senator Beaulieu, while Labor Temples were also used for Communist meetings. Immigrants were taken there to listen to these doctrines. The country was being flooded with Communist literature.

Senator Greaback declared that the Communist was the enemy of the Socialist and the Labor man. He asserted the Government should take action. Mounted Police knew of these activities and kept the Government informed.

Senator Dandurand affirmed that the Government was watching the Communist movement closely. Senator McMeans declared that the Government for two sessions had sought to amend the law to prevent the deportation of anyone. It was the Government's duty to deport the enemies of the constitution.

Success Attends Spring Threshing

Alberta Wheat Grading Higher And Bringing A Better Price Than Last Fall

Montreal.—"Snowed-up" spring wheat now being cut and threshed is grading higher and bringing a better price than that cut at the regular season in autumn. At least that applies to a number of farms in Alberta, notably a large 40-acre farm near Calgary, upon which only part of the crop could be cut last year," according to T. O. F. Herzer, manager of the Canada Colonization Association, Winnipeg.

"This goes to show that fortune sometimes smiles at the most unexpected times," he said, "for, in this case, instead of suffering from a small or a large loss, the crop actually yielded an increase."

Mr. Herzer said that many of the farmers placed by the association were paying off their farms long before the 15-year terms were up.

Since the association was taken over by the Canadian Pacific Railway, under its department of colonization and development, in January, 1925, it had placed 2,433 families of about 13,380 members on the land in Western Canada. This year to March 20, 81 families have been settled on 17,714 acres.

CANADA AND U.S. JOIN TO FIGHT RUST MENACE

Fargo, N.D.—Representatives of four Northwest spring wheat states, North and South Dakota, Minnesota, and Montana, and three Canadian prairie provinces, Manitoba, Alberta, and Saskatchewan, formally launched an organization here to further the development of better quality wheat that is rust resistant and immune from stains.

The group, which is to be known as the hard spring wheat conference, named Dr. John Lee Coulter, president of the North Dakota Agricultural College, as president. Prof. Andrew Bosh, University of Minnesota Farm School, was chosen vice-president, and L. R. Waldron, agronomist at the North Dakota Agricultural School, secretary.

The conference voted to request the Federal Government to furnish \$55,000 to carry on its work. This sum would be supplemented by financial support from the various state and other agencies.

A program committee was chosen to consist of three men from each of the four Northwestern States, three from the U.S. Department of Agriculture, one consulting member from each of the provinces and a member representing the Dominion of Canada.

Following are the Canadian representatives:

Manitoba: W. T. G. Weider, Winnipeg.

Saskatchewan: Dr. J. S. Harrington, Saskatoon.

Alberta: Dr. Robert Newton, Edmonton.

Dr. C. H. Goulden, Winnipeg, will represent the Dominion of Canada.

BILL PROVES FOR NEW GRADES OF SPRING WHEAT

Ottawa.—Amendments to the Canada Grain Act to provide for grades for the large number of new wheat varieties grown in the prairie provinces will be made by Parliament this session. Announcement of this is contained in notice of a Bill which appears on the order paper.

The Bill is being introduced by Hon. James Macdonald, Minister of Trade and Commerce, and in addition to providing for a number of entirely new grades for new varieties of wheat, it is providing for some amendments for the grading and revamping of the grades for barley.

The act, as it stands now, does not provide any grade for certain of the new wheat varieties developed within the past few years.

In regard to wheat, the Bill proposes to amend 96 of the act to provide as follows:

"No. 1 Canada Western hard white spring wheat shall include all varieties of white spring wheat equal in value to quality wheat, shall be clean, weighing not less than 59 pounds to the bushel, and shall contain 45 per cent of hard white kernels. It may contain 5 per cent of Red Spring or Winter wheat and shall not contain singly or in any combination, more than one per cent of Amber Durum, Red Durum or Kota wheat."

"No. 2 Canada Western hard white spring wheat shall include all varieties of white spring wheat equal in value to quality wheat, shall be clean, weighing not less than 59 pounds to the bushel, and shall contain 45 per cent of hard white kernels. It may contain 5 per cent of Red Spring or Winter wheat and shall not contain singly or in any combination, more than two per cent of Amber Durum, Red Durum or Kota wheat."

"No. 3 Canada Western spring wheat shall include all varieties of white spring wheat which are excluded from the preceding grades on account of damage and shall be reasonably sound and reasonably clean, of fair milling quality, weighing not less than 57 pounds to the bushel. It may contain 10 per cent of red spring or winter wheat. It shall not contain singly or in any combination, more than 10 per cent of Amber Durum, Red Durum or Kota wheat."

"No. 4 Canada Western spring wheat shall be white spring wheat excluded from the preceding grades on account of damage and shall be reasonably clean, weighing not less than 55 pounds to the bushel. It may contain 20 per cent of red spring or winter wheat, it shall not contain singly or in any combination, more than 10 per cent of Amber Durum or Kota wheat."

"No. 5 Canada Western white spring wheat shall be white spring wheat excluded from the preceding grades on account of damage, and shall be reasonably clean, weighing not less than 53 pounds to the bushel. It may contain 30 per cent of red spring or winter wheat. It shall not contain singly or in any combination, more than 10 per cent of Amber Durum, Red Durum or Kota wheat."

Propose General Smuts For Defence Minister

Former South African Premier Suggested For British Post

London.—The striking suggestion that General Jan Christian Smuts, former premier of South Africa, and present leader of the opposition in the South African parliament, should be appointed to fill the post of Minister of Defence in the British Government if the Liberal proposal for the combining of the three fighting forces, land, sea, and air, should be carried into effect, was made in the House of Commons by Commander C. B. Bellairs, Conservative member for Maidstone. Commander Bellairs based his suggestion on the fact that General Smuts was not only an eminent statesman, but a great soldier.

"If we could only bring Gen. Smuts home he would make a very good Minister of Defence," the Commander said, "but he would have to be free of the trammels of being elected to parliament here."

Have Withdrawn From Council

Winnipeg.—The United Grain Growers, Limited, and the Grain Growers' Guide, two commercial organizations identified with the Canadian Council of Agriculture for a number of years, have withdrawn from membership in the council, it was officially announced here.

How About Baseball?

A communication appears in this issue from the secretary of the Alberta Baseball Association giving particulars of a provincial meeting to be held at Macleod on Wednesday next, and in an interview with The Journal he stated that he hoped to see Coleman represented. It is hoped that sufficient interest will be aroused locally to ensure a delegate being sent down, as there promises to be a lively discussion as to the status of the association. In the past the word amateur has been more or less of a camouflage, for so-called amateur players have been receiving remuneration for their services, the reason being that in order to hold good players it is necessary to give some recompense. The association executive felt they were justified in winking at these breaches of amateur rules, otherwise many towns would have been without baseball teams. However, the Amateur Athletic Union of Canada (Alberta Branch) is threatening to operate a baseball association of its own this year if amateur rules as regards standing of players are not adhered to, and there promises to be a lively time at Macleod on Wednesday. Most people who have a knowledge of the inner workings of baseball teams in the country districts, will agree that the action of the present executive of the Alberta Baseball League has been justified in their efforts to keep the game alive. The important thing for Coleman to do is to send down a delegate and so have a voice in the discussion and also to stimulate local interest for the coming season.

The Musical Festival

An important event next week is the annual festival of the Crow's Nest Pass Sunday School Association. The first was held in 1925, and in the comparatively short time since then the festival has assumed a status of considerable importance, especially to the mining towns of this district. It has been an incentive to develop musical art and talent among the younger people, and has also created greater interest in things musical among the older people, thereby helping to elevate and inspire above the hum-drum of every day toil. To a stranger the program would be a great surprise to note the numbers that are to be given, denoting ambition of a high degree. There is no doubt that the contests will create intense interest among parents and friends of the contestants, and the public at large will be well repaid in attending as many as possible of the programs during the three days of the festival which opens on Monday.

Vigilance Needed for Fire Fighting

Recently Fernie's fire brigade equipment came under scathing criticism by the public because when the water was turned on at a fire the hose was leaking in a dozen places or more. In Coleman on Tuesday evening delay was caused in getting the motor truck out because the engine would not start without some tinkering at it. It would be a wise plan for the council to insist that the motor be tried out every day to ensure it being ready for service at all times. Minutes mean thousands of dollars when a fire breaks out.

No Move Yet by Mine Workers

Though there are various rumors in circulation, no statements have been given out by operators or representatives of the mine workers as to negotiations for new agreements to come into force on the expiration of the existing agreements on April 30. The president of the Mine Workers Union of Canada, Frank Wheatly, has been here during the week, and stated that up to the present no definite steps had been taken, though conferences had been held by representatives of the workers. Though not making a definite statement, he expressed himself in an optimistic manner as being hopeful of mutually satisfactory arrangements being made to carry on under a new agreement.

The Salvation Army

The Young People's Annual and prize giving on Tuesday evening, April 10, at 7.30. A big night for young and old, and every body is invited to attend this gathering. There will be music, singing, speaking, recitations and dialogues.

Open air meeting on Thursday at 7.30 p.m., and on Saturday at 8.30 p.m.

Sunday services:—Holiness (we need this to see God) at 11 a.m.

Children's meetings: Morning Directory at 10.15, afternoon company meeting at 3.30.

Captain and Mrs. J. Hind

W. Bell Heads Quoting Association of Province

At a meeting held last week in Calgary Wm. Bell was elected president and dates were set for the championship games to be played during the summer. Coleman has been ably represented in the games in recent years. The local players are W. Bell, J. Bell and Robert Penman, another player being required to complete the team.

A meeting of the Boy Scout Association was held on Monday evening, when it was proposed to organize a junior baseball team among the boys and if possible to organize a town league.

Town Council Meeting

A meeting of the town council was held on Monday evening of last week, the following being present: Mayor Burns, Councillors Rushton, P. Smith, J. Moores, W. Fraser and W. Nelson.

The minutes of the previous meeting were adopted on motion of Crs. Fraser and Rushton.

An offer for a heating plant for the town hall was submitted by J. Michalski, which is at present in a building at Frank, but the council did not take action on the offer.

The assessment for 1927 was confirmed in accordance with Sec. 304 of the Towns Act. Additional properties will be included in the 1928 assessment, notice of which will be published in The Journal.

The Works and Property committee was given power to complete the cesspool on Sixth street east.

On motion of Moores and Pattinson the secretary was instructed to write Coleman Light & Water Co. asking that the standpipes on Grafton Flats be thawed out.

The estimates for the current year will be submitted at the next meeting of the council.

It was decided to ask for tenders for the work of connecting up Second street west with the Government road.

After passing a number of accounts, the council adjourned.

United Church Notes

Services are being held each evening of this week in the United church. A good start was made on Tuesday evening when Rev. J. W. Smith of Blairmore gave an address on "The Rent Vell."

Good Friday evening the service will be of special nature. It will take the form of a preparatory service for the Easter Communion and reception of new members. Every member of the congregation should be present at this service. A number of names have been handed in and others may be received till Friday evening.

For Easter Sunday the services will follow along the usual lines for that day. It is hoped that every one will observe the day to the fullest extent.

Miss Hilda Fairbairn returned to Lethbridge hospital this morning, after several weeks' visit at her home here.

IN THE MATTER OF THE LAND TITLES ACT

and in the Matter of a Mortgage made by William A. Dodds to Augustus Ludwig

To:

WILLIAM A. DODDS,

TAKING NOTICE that proceedings under the Land Titles Act have been brought by the Mortgagee under the mortgage on N.W. 16-54-5 W 5th Mer. claiming payment of \$200.00 and interest from 30th January, 1928, and that unless you remedy your default under the said mortgage within two calendar months from the last publication of this notice the Mortgagee at the expiration of said two months may sell and dispose of the said lands and in default of sale may apply for foreclosure thereof in accordance with the provisions of The Land Titles Act.

This notice published on the 29th March and 5th April, 1928.

DATED at the city of Edmonton, in the Province of Alberta, this 22nd day of March, 1928.

AUGUSTUS LUDWIG, Mortgagee,

By his Solicitors,
J. K. MACDONALD & CO.
Edmonton.

Jean Jackson entertained a number of her girl friends at a party on Monday evening.

Showing at the Palace Theatre on Friday, April 6, Lon Chaney in "Nomads of the North," and Saturday, April 7, Emil Jennings in "The Way of All Flesh." Matinee each day at 2 o'clock.

Remember the I. K. Slovak Society annual dance in the Italian hall on Tuesday evening, when Altermatt's orchestra will be in attendance. Look up advertisement in this issue.

The swimming pool dance on Monday evening was attended by as many as the hall would accommodate. The committee is well pleased with the support given, and hope it will continue.

You are invited to the tea and pantry sale and sale of work in the I.O.O.F. hall on Saturday afternoon from 3 to 6 p.m., and to the dance in the evening from 8.30 till midnight. No whist games will be played. See advt. in this issue.

Mr. E. D. Battrum of Calgary, chartered accountant and municipal auditor, was here this week making the quarterly audit of the records of the town office. Mr. Battrum is the enthusiastic secretary of the Alberta Baseball Association, and in other lines of amateur sport in the province has taken a very prominent part during the past number of years.

Tom Izatt gave a party at the home of Mrs. M. Wilson, Second street, on Saturday night, prior to leaving for Newark, N. J., Sunday night, with his brother Archie. Bridge was played, the prize winners being Miss Verna McDonald, ladies' first; Mrs. R. Gillis, consolation; R. Davidson, gent's first; J. Hildich, consolation. Both Tom and his brother Archie were presented with handsome dressing cases testifying to their popularity.

THOSE long, racy lines and smart, new colorings of the New Series Pontiac Six give promise of unusual performance.

The New Pontiac improved six-cylinder engine with its GMR cylinder head amply fulfils that promise.

All the power you need . . . more speed than you care to use . . . and a deep, luxurious comfort at all speeds, over all roads (thanks to Pontiac's Lovejoy Shock Absorbers) . . . all these come to you in the New Series Pontiac Six.

For in this amazing car Performance has met with Beauty; Strength with Comfort and Luxury with Low Price!

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

Of course you'll want Premium Ham or Bacon for Easter

Swift dealers everywhere have strengthened their stocks of Premium Hams and Bacon in anticipation of the big Easter demand.

They are ready to take care of your order.

We suggest that you arrange for your Easter ham or bacon at once, so that you may be sure of getting Premium.

Premium Hams retain their full flavor when served, because they require no parboiling before broiling or frying.
Insist on Premium when ordering. Their splendid flavor and general high qualities will make it worth your while.

Make Sure of Premium for Easter

Miss Florence Cox, graduate of the Jean Carroll School of Beauty Culture, Calgary, will do marcelling, etc., in the evenings and on Saturdays by appointment at Mrs. W. G. Fraser's. Phone 295D.

Conviction was secured by Chief Houghton against the Workers Club for keeping a common gaming or gambling house. George Siot, as manager, or licensee, answered to the charge, before J. W. Graham. Defended by S. J. Bannon, Blairmore, Sergt. Duncan, A. P. P., prosecuting. \$100 fine and 16-50 costs.

The neatest and most business-like way to announce meetings, dances, etc., is either by using printed posters, or notifying those interested through the mails. The old time worn habit of tacking up scraps of cardboard very often illegibly scrawled on a telephone pole appears slovenly, and does not tend to add to the prestige of the event advertised in such a manner.

The beautiful showing of flowers and potted plants in the show window of Graham's barber shop makes one realize that spring is here. These are from Frache Bros. of Lethbridge, for which firm Mrs. Graham is agent, and those requiring Easter lilies or flowering plants would do well to make an early visit before the best are purchased. Cut flowers may also be obtained on short notice.

The man who develops business is the man who is always on the look-out for new ideas. The man whose main consideration is the cutting down of expenses is very liable to find that he is cutting down his business in addition. A happy medium must be observed in all things.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1923

CHAPTER XXI.—Continued

All the women on the second floor had been in to take a look at the pretty young thing with her golden hair spread out on the pillow, and at the radiant baby, who, pink, fat and fine, slept with her two rosettes of hands rolled into her eyes.

"Her house is thatched—God bless her," said Mrs. Corbett, and she placed little Jacob's veil on her face. "Poor little helpless mite, who wouldn't be good to her?"

Late that night a sound came through the three ajar holes in the storm sash which had a meaning for Helmi. It was the ringing of a train bell as the delayed Canadian Northern train left its way carefully out of the yards with its heavy load of delayed passengers. People may be born or may die, but someone had to run the trains. The North Star Rooming House stood near the tracks, and the sound came distinctly and loudly to Helmi's ears. She raised herself on her elbow and listened, her eyes eager and straining.

When the train had gone behind the Great West Garment Factory, and the sound of the bell had grown fainter and fainter, and at last was lost in the myriad sounds of the city, Helmi felt a knock on her pillow sobbing like a dog in a dream, "Home for Christmas! Home for Christmas!" she murmured. "Welcome to Canada—No! No! the snow is best—I will not go to train any more—I will go down deep under snow—now is best place."

Away below the snow, in another world, Helmi's soul wandered loneliness, torn with the old problem of whether to go on or stay. Life was too hard—it had been too hard for Aunt Lili, so she stepped out and left life go on without her. God couldn't blame her for quitting. Why didn't He make life a little easier for women? Why had a baby come to her when she had no home?—It would be lovely to have a baby if only had a home to keep it in. The girls at the Home—she wondered how they could be so foolish. Did they never think?—Now she knew it wasn't fair. . . . God was mean to women. . . . Mean to babies. Rose Lamb was right, God was on the man's side. Every time God was like the two magistrates red-faced, mad, terrible. . . . She hated God!

OPERATION LEFT HER VERY WELL

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frameless and suffering until I thought there could not be any help for me. I had very severe pains in my left side and suffered every month. When I was not able to get up my mother begged me to try your medicine. My husband and I bought a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my left side completely and in an able to do all my work without even a broken bit of my life. I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sanative Wash. Mrs. L. J. LAMONT, Box 105, Coniston, Ontario.

W. N. U. 1727

"She's a fine child," he said, and went back to his supper.

"Whether she is an honest woman or not, I do not know," Mrs. Corbett concluded her recital. "But I do know this—she has been treated bad. Ain't she the little anyway? To go on and leave a poor girl like that with no more thought or worry about it than a tomat!"

John Corbett went on muttering his words in the palm of his hand, and making no attempt to defend his sex.

"Oh, I guess they are all bad, right enough," he said pleasantly. "I often wonder myself why the Lord ever made them. Ain't a good thing there comes a war every week while to fill them off—the divils!"

"Shut up, now, John, you say old dog," said his wife, laughing. "You sure do like to get a rise out of me."

"And me just tryin' to agree with you, woman?" he said.

When Danny Corbett, aged ten, came in from delivering his papers, sheeted with snow, he was not allowed to look at the baby until he had taken off his outer garments and warned himself carefully at the fire, and even then he was not allowed by the watchful Rose to come very near.

Danny offered no opinion.

After Danny had eaten his supper, Rose made a proposition to him. "Sure, Danny, you and me could raise her if her mother dies, and she is not a bit like her mother. No more than if she was dead. I could mind her, and you with your fine paper route now could get her milk. A bottle would last her a long time, and she would be a lot nicer than a kitten, and not any more trouble. You would get the milk, wouldn't you, Danny, and then we could go caboos on her?"

(To Be Continued.)

Continue To Uphold Authority Of Canada

Work Of R.C.M.P. Again Revealed In Annual Report

How the Royal Canadian Mounted Police—formerly styled the Royal Northwest Mounted Police—continue to uphold the authority of Canada up in the Arctic wastes, thousands of miles from civilization, is told in the simple, straightforward language of the annual report of that body which has just been made public. Patrols undertaken within the shadow of the North Pole itself, demanding an absolute mastery of their task, involving treks over glaciers, through blizzards and under conditions that call for the utmost endurance and hardihood, are recounted as a matter of routine duty.

All the land lying North of the mainland of Canada has long since been claimed as the possession of Canada, and in order to assert her authority, Canada sends home war contingents to apply the laws of the Dominion, to succor the Eskimos, whom Canada has adopted as her wards, when they are in need of help, to establish posts where there are none, and in general to administer in the name of the King that vast sub-continent that lies beyond the Northern shores of this country.

Australia's First Typist

After serving 45 years with a well known typewriting agency in Melbourne, Miss Annie M. Clarke, said to be the first typist in Australia, has just returned from the agency imported the first typewriter in 1885, Miss Clarke, who was then little more than a schoolgirl, braved the ridicule that was heaped upon women who entered business in those days and obtained a position in the office. Carbon paper and typewriter ribbons were then so scarce that they were taken home at night to be ironed out.

The block of metal which is the world's standard pound avoirdupois is kept in London.

LESSON No. 15

Question: Why is emulsified cod-liver oil so important as an addition with milk in the diet of children?

Answer: Because when it is mixed with milk it makes milk a more efficient rickets-preventing food and builder of strong bones. Children like it best in the form of

SCOTT'S EMULSION

The flat, stale taste which you sometimes find in tea may be due to the package it is put up in. R. Rose Tea is of such fine quality that no chances are taken. It is packed in aluminum, the only material that gives complete protection against dust, dampness and deterioration.

NAVAL CAPTAIN WON V.C.

Was In Command Of "Mystery Ship" Pargust During War. Captain R. N. Stuart of the Canadian Pacific Service, the only Canadian naval officer to receive a Victoria Cross during the great war, is to bring the railway company's newest passenger steamer, the Princess Elaine, from Glasgow to Victoria, B.C., where it will enter the Vancouver-Nanaimo run early in May. The vessel was built at Clydebank.

One of the crew with the 300 officers in the Canadian Pacific Service who entered the royal navy during the war. He was in command of the "mystery ship" Pargust one day when she was torpedoed by a submarine. From all indications the Pargust was a tramp steamer. A big hole was blown in her by the Whitehead and she soon developed a heavy list.

Up and down with the Pargust, Stuart and a few as daring, who remained hidden aboard, fled in life boats. When it appeared that the ship was abandoned, the submarine came up and opened fire with her guns.

Stuart received the V.C. and the D.S.O. as well for this daring feat, to add to his R.N.R. cross.

Recipes For This Week

(By Betty Barclay)

BANANA CANOES

- 4 bananas.
- 2 oranges.
- 5 slices pineapple.

SALAD DRESSING

With a sharp knife cut a section of skin from the concave curve of the banana, and carefully take out the fruit, leaving the skin in the shape of a canoe. Pare oranges; remove sections, cut in pieces; mix with pineapple (cut in pieces) and an equal amount of banana pulp (cut in pieces). Fill canoes with fruit; cover with Mayonnaise or French dressing; sprinkle with paprika; lay on bed of shredded lettuce, and garnish with berries or candied cherries.

EGG MILK SHAKE

- 3 cups milk.
- 3 eggs.
- 4 teaspoons sugar.
- 1 teaspoon vanilla.
- ½ teaspoon salt.
- ½ cup granulated sugar.
- ½ cup brown cinnamon.

Beat the eggs until very light. Add the sugar, salt, vanilla and spices, then the milk. Stir till the sugar is dissolved, then beat well. Serve cold.

A Good Investment

Mortgage On Any Useful Thing Is Not a Real Debt

A prominent banker makes the statement that four-fifths of all wage earners are in debt. Only about a quarter of the country's population, he says, are free from financial worries. This sounds somewhat appalling and might lead to the conclusion that we are an improvident nation of spendthrifts. Most people will agree that it is no fun to be in debt. The feeling that one owes money for necessities or luxuries is to the majority a humiliating one. There are indeed people who take their financial responsibilities very lightly and refuse to lose any sleep over discrepancies in the personal or family budget, but the average man and woman feel uncomfortable under such a strain. There are, however, debts and debts. The man who owes for a home, an automobile, a piano or other furniture, may be in the soundest of financial condition. A mortgage is no longer regarded as a sort of family skeleton, but as a very sound and rational business investment.

Forty-four Government employees are provided to serve the President of the United States in the White House.

The real joy of living consists in making one's own mind a pleasant place to spend one's leisure moments.

Keep Mink's Emulsion handy.

Train Stops Are Costly

Every Signal Check Means Expense To Railway Company. Although many people complain when a train is delayed because the signal is against it, few realize that every signal check is a matter of expense to the railway company. The cost of stopping and starting a passenger train in England is three shillings and sixpence, and in the case of a freight train between five and six shillings. In a year this amounts to a big sum. Because of this railway companies are trying to equalize signal sections, in order to eliminate unnecessary signals.

AFTER ALL There's Nothing To Equal Eucalypti FOR THE SKIN!

Little Helps For This Week

"In quietness and in confidence shall be your strength."—Isaiah xlv. 15.

I would be quiet, Lord? Not tears nor fret: Not one small need of mine Will Thou forget.

Confidence is the secret of strength.

A mind may be still though active; and the quietness which is part of the "confidence" we have in Him, the Christ, is only found in the close abiding in Him, enmeshed in His own parable of the Vine and the branches.—Rose Porter.

First Woman Ship Broker

Young English Girl Has Qualified For Unusual Position.

Although not yet old enough for Miss Mabel Welles, 23, has passed examinations which make her the first woman qualified as a ship broker in England. A ship broker's duties require the negotiating of cargoes for steamers throughout the world, the bearing of responsibility for discharging of cargoes, the entering of bills of lading, the selection and crews of all nationalities and the employment of technical knowledge of all classes of ships and markets in the world. Miss Welles began her career in this most directed way as a clerk in a London ship broker's firm.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them, Mrs. Charles Hill, Tancook Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta Trappers Made Profit

The prairie fur trade of the region from Lethbridge to Medicine Hat continues to net hunters and trappers good returns financially, and many buyers from distant points are in the field. Furs trapped and shipped are badger, kit fox, weasel, rabbit and coyote, and one representative farmer claims to have averaged over the past six or seven weeks \$10 to \$15 per day.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

Missed the Compliment

A chorus girl, deliciously pretty but decidedly low-brow, somehow found herself at a very select party given by a famous society woman.

Star Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume to acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the range of medicine. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions.—any druggist.

Personal and Local

To-morrow, being Good Friday, all stores and business places will be closed.

Dictator Alf Hatfield of the local lodge, Loyal Order of Moose, has been re-elected for a second term.

Miss Dorothea Cox, teacher of Grade VI, at Blairmore, spent the week-end visiting her sister Miss Florence Cox in Coleman.

On Monday, April 8, the J.W.A. of St. Alban's, will hold a whist drive at 7.30 p.m. in the parish hall. Tickets, 60c, may be bought from the members.

J.D. Freeman of the High River branch, Bank of Commerce, is taking the place of F.C. Ross in the local branch, the latter leaving for his home at Chin, Alta.

Marjorie Halliwell entertained a number of her schoolgirl friends last Friday evening at a birthday party, eighteen being present. They spent the evening in games and guessing contests.

Mr. O.E.S. Whiteside returned from Winnipeg yesterday morning, where he had been on a business trip following the annual meeting of the International Coal & Coke Co. Ltd., held last week in Vancouver.

Mrs. A.D. Currie, with her mother, Mrs. Cartwright, visited the latter's daughter, Mrs. Brown, last week at Calgary, where she is a patient in the general hospital. Mrs. Brown, with her children was visiting here during the latter part of last year.

Antrobue's Sell Good Shoes

CLASSIFIED ADVTs.

Advertisements under this heading such as For Sale, To Rent, Lost, Found, etc., are charged at the rate of 10c per line, counting five words to the line, with a minimum charge of 35c.

FOR SALE—A buggy and a light dray. Apply to W. Antrobue, Dependable Dairy, Coleman. —30-2 n.

FOR SALE—A few fresh milk cows and 25 head of horses. (4) Fleming, on Le Gal ranch west of Coleman. —30-3

WANTED—House to rent, five rooms. Must be modern. Furnished or unfurnished. Responsible party. No children. Box 291, Coleman.

LADIES—The most stylish and latest in artistic haircuts and bobs can be obtained at W.J. McCreath's hair shop. Two expert barbers. The right style is important. Here is where you get it.

HOUSE FOR SALE—5 rooms, hot and cold water fittings. Apply to L. Stephenson, 4th street.

Sid Short was a visitor at Lethbridge over the week end, where Mrs. Short is visiting relatives.

The Misses Phemia and Patience Fraser went to Champion on Tuesday to visit an aunt there.

Miss Kilgannon, formerly stenographer at the International of flowers, left on Tuesday for Champion to commence duty in the Bank of Commerce there.

Many in town will regret to hear of the serious condition of Dr. Green, of the University of Alberta, who last summer was here during the absence of Dr. Borden on vacation. He underwent an operation yesterday, and Dr. Borden left earlier in the week for Edmonton.

Pontiac and McLaughlin cars are now conducting an aggressive advertising campaign for these noted cars, the dealers in Coleman being Sentinel Motors Ltd., at Coleman Garage, who will gladly give complete information to prospective buyers.

There will be a service of unusual importance in the United Church on Good Friday evening. Every member of the congregation and all interested should be present. The day should not pass without some religious observation on the part of each one. Service at seven-thirty.

Robert Barnes, of Coleman, represented Mr. Laddo in his action against Blairmore's chief of police and Mrs. Grampietri before Judge McDonald here on Monday afternoon, in which costs of around twenty dollars were taxed. This was an action for ejectment, following the replacing of the woman and her children in a house after they had been put out by the landlord, Laddo. The accused were not represented by counsel. —Enterprise

Miss Florence Cox, teacher of Grade 2, Central school, whose class collected recently for the Junior Red Cross funds, reports a total of \$20 having been collected, which has been remitted to the provincial headquarters at Calgary. Thanks is extended to all who donated towards the appeal of the children. It might also be mentioned that \$12 was collected by the same class for the Christmas fund of the Junior Red Cross.

No longer will the lobby of the post-office be the place where notices of meetings, articles for sale and many other announcements may be posted up. The notice board, originally placed for the display of town notices, has been taken down, and the board restored to its original owners, the town council, who will use it at the town hall for their notice board. The post-office regulations do not permit of private notices to be displayed in post-offices, for if it were allowed to go on unchecked the four walls would not be sufficient to accommodate all the posters, scraps of paper and what-not that people would post up.

"Mickie" Hatfield, the well known Coleman athlete, and her sister, Ralphena Hatfield, are now residing in Drumheller and will prove quite an addition to athletic circles in the Coal City. Miss Mickie Hatfield was a member of this year's Shamrock ladies hockey team of Coleman and she was a star member of the Coleman ladies' basketball team as well as playing hockey, as well as baseball and other athletic games. She is quite a boxer, and along with her sister, Ralphena, who is quite an athlete, she is training under the supervision of her uncle, Roddy McDonald, former Canadian middleweight champion. The girls are developing an attack and defence, which would do credit to many exhibitions of the manly art given by the mere males. These two young ladies are practicing their boxing stunts to be given in connection with an athletic turn which will be staged at a later date.

T.F. Bluffon, supervisor of Forestry service, was here this week on a visit to Forest Ranger Harry Boulton. Mr. Bluffon was the first ranger in this district, and is well known to the older residents.

The wickets in the post office will remain open for one hour only on Good Friday and Easter Monday, from 9.30 to 10.30 a.m. The money order wicket will not be open on either day.
